Profile

In my 10+ years, I've helped build products in Wealth On-boarding, Mobile Banking, Business Banking, Telecom among others. Expert in Typescript, Angular, SCSS, Agile/Kanban, CI/CD, coding practices.

Employment History

FRONT-END PLATFORM ENGINEERING LEAD, RBC, Toronto

OCTOBER 2022 — PRESENT

At RBC, I play a crucial role in enhancing the current developer experience to facilitate faster and more effective delivery of software projects with the Business Financial Services platform.

As part of this role, I work with developers accountable for assessing the current state of our platform and implementing strategic improvements. This includes facilitating pair-programming sessions, coding dojos at squad level to foster coding best practices.

Collaborating with the senior management team, I lead the creation of proof-of-concept applications, exploring innovative ideas and potential solutions, demonstrating a proactive approach to problem-solving and technology exploration.

Actively engaged in leading the Front-End Technical Leadership Committee, my valuable insights and technical leadership influence the direction and execution of our front-end initiatives.

SENIOR DEVELOPER, Capco, Toronto

JULY 2021 — AUGUST 2022

On this project at RBC, our squad was tasked with implementing a new web-view mobile portal aimed at ensuring the bank's compliance with Bill C86, which mandated customer consent for account opening.

The solution was constructed using Angular, NodeJS, Typescript, and Jest for unit testing, with SCSS for styling. In addition to my development responsibilities, I played a key leadership role by helping to lead the team in building the web-view portal for the bank's mobile app. This included integrating ISAM (CIAM) within the user interface.

I also had the privilege of leading the development team within the squad, contributing to the success of our project.

SENIOR DEVELOPER, Capco, Toronto

MARCH 2019 — JULY 2021

On this project at RBC, the primary goal was to build a new Business Banking platform (RBC Edge) to replace the existing RBC Express portal.

My role involved working within an agile development team, collaborating closely with other developers, product owners, and designers. I was responsible for designing, developing, and maintaining Angular libraries and apps as well as pair programming with other developers to facilitate knowledge share.

I also helped improve code quality of our codebase by working with the team to establish and enforce code-quality checks at pre-commit, pre-push and pull-request stages.

SENIOR DEVELOPER, Capco, Toronto

MARCH 2017 — MARCH 2019

I was a part of the team working on a project with the goal of creating the Retail (personal) banking portal for BMO Harris Bank, along with iOS and Android mobile apps using Hybrid mobile app technologies.

My responsibilities included developing and owning various features for the project and collaborating with vendors to seamlessly integrate Zelle, BillPay, and Tsys for Credit cards within the app and portal.

We utilized technologies such as Angular, Typescript, Ionic, NGRX, and implemented lazy loading to enhance the overall user experience.

SENIOR FRONT-END DEVELOPER, Capco, Toronto

JUNE 2016 — MARCH 2017

On this project for BMO Canada, the goal was to build the Personal Wealth On-boarding Portal, which aimed to assist advisors in on-boarding new wealth clients.

My primary focus was on constructing the UI for the advisor-facing portal, and I utilized technologies such as Angular, Typescript, SCSS, and implemented lazy loading as part of the development process.

SENIOR FRONT-END DEVELOPER, MobileLive, Toronto

JUNE 2015 — FEBRUARY 2016

On this project, our main goal was designing and developing Front-End SDKs for use by enterprise-level web applications used by the major Telecom company, Ericsson.

My role involved writing Angular-based applications and sub-modules in collaboration with the team.

FRONT-END DEVELOPER, Filemobile, Toronto

JUNE 2011 — JUNE 2015

I was responsible for owning the development and maintenance of some of Filemobile's highest-selling Web App Products, which included the Gallery, Uploader, Slideshow, and the App Publisher. I worked closely with Product Managers and QA to ensure the delivery of outstanding websites for our clients.

Education

DIPLOMA Multimedia Design, FANSHAWE COLLEGE, London, ON

JANUARY 2009 — JANUARY 2011

BACHELOR'S DEGREE, IT Engineering, University of Mumbai, Mumbai

JANUARY 2004 — JANUARY 2009
